Idle Timeout

20

Minute(s)

Note: When multi-role is activated, the modal will be displayed based on the idle timeout selected for each individual user role. Limited to 24 hours i.e 1440 minutes. If these timeouts are not working for you then, [read this post](#).

<p>You have been logged out because of inactivity.</p>

Message to be shown when idle timeout screen shows.

Timeout Countdown Period

10

Second(s)

Countdown before the actual logout to the user in a pop-up. If you set this to 0, the countdown will be set to 10 seconds.

Disable Timeout Countdown

☐

Check this box to immediately logout the user after the idle timeout minute without any timeout grace.

Show Popup Message Only

☐

This will show the warning message in a pop-up, but the user will not be logged out.

BasicAdvancedTools

Max Login Retries

3

Number of failed login attempts within the "Retry Time Period Restriction" (defined below) needed to trigger a Lockdown.

Retry Time Period Restriction

5

minutes

The time in which failed login attempts are allowed before a lockdown occurs.

Lockout Length

60

minutes

The time a particular IP will be locked out once a lockdown has been triggered.

Log Failed Attempts With Non-existent Usernames

Log failed log in attempts with non-existent usernames the same way failed attempts with bad passwords are logged.

Mask Login Errors

Hide log in error details (such as invalid username, invalid password, invalid captcha value) to minimize data available to attackers.

Block Type

Completely block website access

Only block access to the login page

Completely block website access for blocked IPs, or just blocking access to the login page.

Block Message

We're sorry, but your IP has been blocked due to too many recent failed login attempt

Message displayed to visitors blocked due to too many failed login attempts. Default: We're sorry, but your IP has been blocked due to too many recent failed login attempts.

Whitelisted IPs

List of IP addresses that will never be blocked. Enter one IP per line.
Your current IP is: 46.122.65.64

Show Credit Link

Show a small "form protected by" link below the login form to help others learn about the free Login Lockdown plugin & protect their sites.
